

ABSTRACT

32 A method is provided for commissioning a telecommunication terminal device as well as a corresponding telecommunication terminal device, by which a plurality of operating parameters of the telecommunication terminal device for commissioning
5 can be set by an operator via the keyboard (2-9) of the telecommunication terminal device. The setting of the operating parameters is supported by an automatic input assistant that prompts the operator to set corresponding operating parameters in the form of a plurality of input or selection masks and thus guides the operator through the setting procedure.
